RANJITH B

Aspiring Data Analyst

7639361285 | ranjithofficial.17b@gmail.com | LinkedIn | Tiruchirappalli

PROFILE

Aspiring Data Analyst with a strong foundation in SQL, Python, and Excel, backed by hands-on experience turning raw data into clear, actionable insights through academic research and internships. Comfortable working across the analytics workflow — collecting, cleaning, analyzing, and visualizing data (Power BI) — to support data-driven decision-making. Seeking an entry-level Data Analyst role to apply analytical, problem-solving, and reporting skills.

CORE SKILLS

- **Data Analysis & Statistics:** SQL, Python (Pandas, NumPy), Data Handling & Data Entry, descriptive statistics, survey analysis, IBM SPSS Statistics
- **Tools:** MS Excel (formulas, pivot tables), Power BI, MS Word, MS PowerPoint, Canva
- **Analytical Thinking:** Problem Solving, Time Management, Project Coordination
- **Communication:** Reporting & presentation of findings, Teamwork, Leadership

DATA ANALYST PROJECTS

- **Sales Performance Analysis:** Analyzed monthly sales, revenue, profit, products, and regions; built a dashboard covering Sales, Profit, Top Products, and Regional Performance. Tools: Excel, Power BI, Python.
- **E-Commerce Sales & Customer Analysis:** Analyzed online orders, products, customers, discounts, shipping, and revenue; built a dashboard covering Orders, Revenue, Best-Selling Products, and Customer Trends. Tools: Excel, SQL, Power BI.
- **Customer Churn Analysis:** Identified customers likely to leave by analyzing age, subscription, usage, complaints, and payment history; built a dashboard covering Churn Rate, Customer Segments, and Risk Factors. Tools: Python, Power BI, Excel.

FINAL YEAR / ACADEMIC PROJECTS

- **Customer Satisfaction & Loyalty Study — V-Mart, Tiruchirappalli:** Designed and administered a survey, then used IBM SPSS to analyze customer data and identify key drivers of satisfaction and loyalty in the fashion retail sector; presented findings and recommendations.
- **Service Learning — Eco-Friendly Fashion Retail, Menn Clothing:** Collected and analyzed field data on sustainable retail practices; summarized insights into a structured report.
- **Smart India Hackathon 2025 & Ideation Hackathon 2K25:** Applied structured problem-solving and data-driven thinking to develop solutions under time constraints.
